

# Provider Outreach Survey

The revisions to the Civil Surgeon Technical Instructions for medical examinations of persons seeking permanent residency in the United States took effect on October 1, 2018. Please take a few minutes to complete this survey to help us collect information on ways we can support you with adhering to these new requirements.

1. Civil Surgeons are now required to report Latent TB Infection to the Local Health Department.

Have you registered for a CalREDIE Provider Portal account?

- Yes
- If no (Check all that apply)
  - Not enough time
  - Not enough staff
  - Did not know this was a requirement
  - No Latent TB Infection cases to report
  - Do not know how to register
  - Other: \_\_\_\_\_

Have you reported Latent TB Infection through the CalREDIE Provider Portal?

- Yes
- If no (Check all that apply)
  - Not enough time
  - Not enough staff
  - Did not know this was a requirement
  - No Latent TB Infection cases to report
  - Do not know how to report
  - Other: \_\_\_\_\_

2. If you have a patient with Latent TB Infection, would you:

Provide treatment:

Which treatment regimen would you prescribe (Check all that apply):

- Rifapentine and Isoniazid- 3 months
- Rifampin- 4 months
- Isoniazid- 6 months
- Isoniazid- 9 months
- Other: \_\_\_\_\_

Refer to another provider (Primary Care Physician or Community Clinic) for treatment

None of the above

3. What additional support would help you in reporting and treating Latent TB Infection?

- Webinar
- In-person training
- Access to Rifapentine, Isoniazid, and/or Rifampin
- Educational materials (specify): \_\_\_\_\_
- None
- Other (specify): \_\_\_\_\_

2. For TB materials, which language(s) would be most helpful for your patients? Circle all that apply.

Armenian	Cambodian	Chinese	English	Korean
Russian	Spanish	Tagalog	Vietnamese	Thai

**Thank you, we appreciate your feedback.**
